

Immunization Requirements

Diphtheria/Tetanus (DPT/DT/DTaP/Td): 4 required including one after age 4

Polio (OPV/IPV): 3 required

Measles/Mumps/Rubella (MMR): 2 required, first must be after age 1

Hepatitis B (HepB/HBV): 3 required, must be properly spaced

Varicella (Varicella/Varivax/VZV): 2 required, first must be after age 1
(unless the child has had the chicken pox)

Meningococcal conjugate (MCV) and TDAP: 1 dose of MCV and 1 dose TDAP is required for students entering 7th through 11th grade

If a student is missing an immunization at the time of registration, because they have not yet had their check up, an appointment card from the doctor's office may be submitted to complete the registration. Proof of immunization must then be presented to the school nurse by the time school starts.

A student must have at least one of each immunization along with an appointment card to start school
